About Me

As a skilled and experienced UI/UX designer, I am passionate about creating intuitive and engaging user experiences. I have a strong understanding of web functionality, user interfaces, and site architecture, and am proficient in a variety of design tools and techniques. I am constantly seeking ways to improve my skills and stay at the forefront of the industry and am currently exploring the use of 3D sculpting programs such as Zbrush and Blender to enhance my abilities. In addition to my technical skills, I am a creative and enthusiastic team player who is easy to work with and always open to feedback. I am confident that my unique blend of skills and experience make me an excellent candidate for a UI/UX design position.

Positions Held

UI/UX | Bigcrunch, Istanbul

June 2021 to March 2022

My experience as a junior UI/UX designer for a gym mobile app in Istanbul helped me develop my skills in collaborating with a team of designers and developers to create user-friendly and visually appealing designs.

The experience allowed me to gain hands-on experience in designing wireframes, prototypes, and high-fidelity mockups, as well as conducting user research and testing to gather feedback and improve the app's usability.

Through this experience, I was able to contribute to the success of the app by helping to increase user engagement and retention, which has had a positive impact on my career as a UI/UX designer.

- Worked as a junior UI/UX designer for a gym mobile app in Istanbul
- Collaborated with a team of designers and developers to create a user-friendly and visually appealing app
- Designed wireframes, prototypes, and high-fidelity mockups to illustrate the app's functionality and design
- Conducted user research and testing to gather feedback and improve the app's usability
- Created graphic assets and design elements such as icons, buttons, and color palettes
- Worked closely with the development team to implement design decisions and ensure the app's visual consistency across platforms
- Contributed to the success of the app by helping to increase user engagement and retention
